New or Updated Today

Announcement: The Search and Information Resources Administration (SIRA), Office of Patent Automation (OPA) and Office of the Chief Information Officer (OCIO) have noted that eDAN is displaying an incorrect time stamp on the Docket window and the Table of Contents (TOC).

The incorrect time stamp on eDAN's docket window and the TOC does not affect eDAN's operation and was caused by system changes that were performed to accommodate installation of new Daylight Saving's Time (DST) patches to Microsoft XP.

A corrected time stamp will appear in eDAN's Docket window and TOC by March 5, 2007.
